

Program Management for a group of SME off shoring projects from USA.

Visharad Consultancy Services(VCS) in association with ViVirtual Minds is facilitating the program management of two small enterprises in the US who have outsourced their requirements to small enterprises in India. This has ensured in quality and timely delivery and within budget. VCS with its objective of enhancing the delivery capabilities of small enterprises is now replicating this model to other small enterprises.

Business Process Review/Audit for a SOA based Application Generator Tool manufacturer.

As a value added consulting partner for the software manufacturer, VCS through its Program Management Services helps deploy very successful applications in programmer-less environments.

Program Management Implementation, Review and Coaching for a large software company.

VCS has supported a large software company with the implementation of program management practices in the development of a Program Planning Process, Program Initiation Process and a Program Review Process for their large solution based international engagements with an underlying products based software infrastructure.
